iCONTROL

FEATURES

MONITORING

We monitor your home 24/7 from our local monitoring station. Battery backup and cellular backup features built into your system add extra layers of security if a power or broadband outage occurs.

REMOTE CONTROL

Control your system from wherever you are, right from your phone or work computer; and, you can even receive email alerts when your system is armed or disarmed.

CAMERA ACCESS

View up to six live video feeds from inside or outside your home. Set your camera to record at certain times or when triggered by an event, then save them to view later.

LIGHTING/SMALL APPLIANCE CONTROL

Control your home's lighting and small appliances all from the touch of a button. Set your lights and check to make sure small appliances are turned off.
